

Assignment 2: Class discussion and analysis of the movie What Happened to Monday?

Description

In week 7, students will watch and analyze the movie "What Happened to Monday?" They will also analyze the article "The Cruel Optimism of Anthropocene Technologies: Suspicion and Fascination of Technology in Okja, What Happened to Monday, and Geostorm." Students will be asked to relate ethical issues presented in different parts of the movie. For example, can the student recognize ethical issues when presented in the movie and recognize cross relationships among the issues? They must refer to the theory learned the previous week. This will be assessed via an oral—recorded video— or written report students will post on Canvas. AAC&U Ethical Reasoning VALUE Rubric (aacu.org) will be used for the assessment.

In-Class Activity

- Class discussion on A.I. and Ethics regarding human life.
- Article analysis: *"The Cruel Optimism of Anthropocene Technologies: Suspicion and Fascination of Technology in Okja, What Happened to Monday, and Geostorm."*
- Class discussion on *What Happened to Monday?*

Question for the discussion board

- Understanding different AI Ethical principles/concepts: Can the student understand at least one ethical framework (UNESCO, Montreal) and name/explain several principles?
- AI Ethical Issue Recognition: Can the student recognize ethical issues when presented in a movie scene and recognize cross relationships among the issues? A typical question to assess this could be "Presented with a particular scene, do you recognize one or many ethical problems and why?"

The question to assess this will be posted on the discussion board:

- What is an ethical problem listed in the Montreal Declaration(<https://montrealdeclaration-responsibleai.com/the-declaration/>) and a related principle from UNESCO(<https://www.unesco.org/en/artificial-intelligence/recommendation-ethics>) and portrayed in the movie What Happened to Monday? and why?

Students will post their answers in at least 250 words and reply to two classmates' posts in at least 100 words. The reply should include a comment and a follow-up question. They can also choose to reply to a question posted to them.

Assigned Reading

- ["The Cruel Optimism of Anthropocene Technologies: Suspicion and Fascination of Technology in Okja, What Happened to Monday, and Geostorm."](#)
